### **SUPERVISOR RIDLEY-THOMAS STATEMENT ON \$1.4 MILLION TRANSIT GRANT FOR CRENSHAW/LAX LIGHT RAIL LINE**

“With Los Angeles voters having stepped up to the plate with the passage of Measure R (local sales tax for transportation), I applaud this initial grant of \$1.45 million to design the Intermodal Transit Center at Aviation and Century Boulevards for the future Crenshaw/LAX light rail line. This investment from the federal government will mean jobs in the transit corridor that will help link bus and train travel, making LAX more accessible to Los Angeles County residents. I applaud the leadership of Congresswoman Harman in securing these funds and look forward to working with her to secure additional funds as the Crenshaw/LAX light rail line continues to become a reality.”
